# TESTIMONIALS

12 September | SINGAPORE

13 - 14 NOVEMBER | DÜSSELDORF

## Prof. Dr. Herbert Löllgen

Sports Cardiology, Member Executive Comm. EFSMA,  
Honorary President of German Sports Medicine  
Association

“I would like to compliment you on the MEDICA MEDICINE + SPORTS CONFERENCE, the perfect organization and the excellent program, starting with Mr. Sebastian Kienle, Prof. Barbara Wessner, Dr. Aaron Rubin and Prof. Dr. Yannis Pitsiladis. An excellent and varied program, well moderated and very well attended. This event is a highlight at the end of the year in sports medicine. A very good overview is offered here, and this event can be regarded as the new standard.”

## Dr. Andre Debruyne

President EFSMA (European Federation of Sports  
Medicine)

“Excellent. I have not seen so many innovative things before at a conference – a lot of new insights and other looks on sports medicine. That is very important.”

## Heidi Dohse

Founder Tourde Heart, Program Manager  
Google

“I am amazed by new more and more technology coming up from individual features to now full solutions that contribute a great benefit to patients and people’s lives.”

## Prof. Dr. Scott Paluska

Clinical Professor University of Illinois at Urbana-Champaign,  
Department Head Christie Clinic Sports Medicine, FACSM

“Thank you again. I greatly enjoyed attending the meeting and found it to be excellent. I think the collaboration between ACSM and MEDICA is robust and rewarding and will be something we continue to develop in the future.”

## Marc Meurer

Polar

“The exchange between sports science and industry is very important. Sometimes sports science is not well informed what the industry actually can do to support them. Platforms like the MEDICA MEDICINE + SPORTS CONFERENCE are very important to strengthen this network!”

## Dr. Joni Kettunen

CEO, Firstbeat

“It is a great set of experts here at the conference. We had the chance to get a good access to the sports medicine network as the right contact persons are onsite. And we are really happy to contribute our real case studies to the sport medical and sport science experts.”
